Absent: Jessica Tomic, Harry Perry, Bruce Perry

Minutes of 7/21 accepted

Sarah reported on use of building: Do we need a time line for our groups who use the building to let them know if it will be available to them this fall?

Do we open for them and not for services?

What are our next steps?

Do we turn this over to the building committee to organize all the steps involved?

What are the rules for this being used by other churches?

We need a consensus from the vestry as to how our services should continue this fall.

Sarah has no information at this time from our technical consultant, Glen.

Joy will update us on the CAT survey:

Question raised about what will happen if the majority want the "option" question?

Answer: We will go ahead with the survey replacing the worship question with the other.

A first letter explaining what is to come will go out to the whole parish as a hard copy.

The second mailing is to be done for however many are needed from the current mailing list , not everyone. The survey team will work according to their timeline for all that is to follow.

CAT will be on the agenda for the extra meeting to be held on Sept. 6th.

GHIAA launch is on the agenda . The "Listening Project is to get started.

Gene gave us some budget projections.

It was decided that another meeting would be scheduled to discuss the "doors" project.

Meeting closed with a prayer at about 8:20pm.

Respectfully submitted
